JJ,

I signed the contract and have attached. It is a digital signature which Sterling said was ok. I can do a wet signature if they insist

I hereby authorize per our verbal agreement you have my permission to use \$50,000 I wired to you to buy bitcoin for me to pay this first payment to the Development Team together with our shared funds from Uberfund to cover the \$76,000 first installment.

You mentioned they may want bitcoin so if you need to convert go ahead. Buy low and sell high to give us a little cushion.

Call me when you are up so we can put our heads together on how we cover the next payment coming up in 30 days.
